

JUNIOR DESIGNER · CV 2026

Olaf Nijmeijer

I'm a junior designer who loves the whole journey from idea to visual. I think in concepts that work on any medium and turn them into strong visuals: from graphic design and brand expressions to websites and video.

During my internship at Coolblue's in-house creative team I worked on concepts and brand expressions for a major brand. Now I'm looking for my first design role at an agency or in-house team, where I can keep learning and growing.
